Property Insurance Appraisals

Objective. Independent.

Accurate. Fiduciary.

When considering insurance appraisals, Attain Partners brings a deep understanding of the process from start to finish. We've spent decades working closely with small, medium, and large organizations, and we understand the fiduciary responsibility of owners, financial executives, risk managers, and board members to assess risk of loss and asset insurable values while obtaining sufficient insurance coverage.

Our appraisals are essential to insurance carriers/underwriters, brokers, and owners as authoritative independent assessments of insurable replacement costs as well as insurance values for coverage renewal. These appraisals enable the accurate measurement of labor and materials used in construction, reflect the quality, unique features, and often changing size and extent of buildings and equipment, and document assets so that brokers, underwriters, and carriers understand the risk of loss and can provide their best pricing for coverage.
