

Contract Negotiation Services

We specialize exclusively in negotiating contracts within the research and procurement sectors. Our team of experts offers a fixed price per contract based on the complexity of the agreement. This allows institutions to keep us on retainer with no upfront cost and leverage our services when needed. You only pay for the work completed, giving you predictable costs without the burden of underutilized full-time employees.

THE ATTAIN PARTNERS GUARANTEE

Our contract negotiation services come with three guarantees:

Timeframes for getting initial drafts/redlines to the counterparty

A proven, systematic follow-up process

Complete negotiations on any contract on which you engage us

By having guaranteed service levels for initial review, responding to responses, and follow-ups we have a system that has proven to reduce turnaround times.
